

Educator Accountability Implementation Timeline

Toward preparing students to be college, career, and culturally ready graduates.

Pilot Components & Planning Considerations

Student Learning Objective (SLO)

- ❖ Whom will you invite to participate in the pilot?
- ❖ When will your pilot begin? When will it need to end? (Instructional Interval)
- ❖ For the pilot, what guidance will you provide to participants concerning the selection of assessments and the development of the Student Learning Objectives?
- ❖ What data will your invited participants need? Do they have access to that data? If not, how will you provide them access to it?
- ❖ What training needs will your participants have? When will you provide the necessary training?
- ❖ What templates, tools, and guidance documents will you need to create, borrow, or edit for the pilot?
- ❖ What aspects of the pilot will you share with non-participating stakeholders? When and where will you share that information? (i.e. Awareness, Progress, Lessons Learned, Implementation Guidelines, etc.)
- ❖ By what date will you need the results of the pilot so that stakeholders will have sufficient time to finalize guidance/directions for full implementation in the 2015-2016 school year?
- ❖ Who will be responsible for overseeing the pilot? Who will analyze the results of the pilot and make recommendations concerning year one of full implementation?

Alaska Educator Evaluation Overall Rating

Districts will use the ratings on each standard of an educator's evaluation to calculate the overall rating of the educator. The illustrations below show the percentage of student learning data that will be factored into the overall rating of teachers. The same percentages are required for administrators.

Overall Rating Matrix

The overall rating matrixes below illustrates how teachers' and administrators' overall ratings will be impacted by the inclusion of the student learning data. The matrixes also show how the requirement that educators must be rated as proficient or exemplary on all standards to receive an overall rating of proficient or exemplary impacts the overall rating calculation.

Growth Target(s)			
What is your growth target for your students?	On the assessment described above, all students cover by this SLO will increase their score by ... N/A see below		
If baseline and trend data supports the development of tiered targets, indicate your target for each group.	On the assessment described above, students whose baseline data indicated that they have the lowest level of preparedness will increase their score by... at least 45 words read correctly.		
	On the assessment described above, students who were determined to have a medium level of preparedness will increase their score by... at least 40 words read correctly.		
	On the assessment described above, students who were determined to have the highest level of preparedness will increase their score by... at least 35 words read correctly.		
How did you arrive at the growth targets for your students? On the SLO class roster, identify each student's growth target score.	The growth target was determined by examining the baseline data from previous year district data and the national average of growth in the area of words read correctly. The growth target exceeds the district's average from the previous year of data for all levels of preparedness. The growth targets were determined in collaboration with the other primary teachers in my building.		
Scoring			
Exemplary (4): more than 85% of students met their target	Proficient (3): between 65% and 85% of students met their target	Basic (2): between 40% and 64% of students met their target	Unsatisfactory (1): fewer than 40% of students met their target

Directions: Using the Growth Targets established in the SLO above, determine the growth target for each of the eleven students on the class roster below. Indicate if the target was met or not met; and score this SLO for Ms. Chalk (excluding any students that did not meet the attendance threshold requirements).

Student Learning Objective (SLO) Checklist Sample

Purpose: This sample checklist could be used for both writing and approving Student Learning Objectives (SLOs). When used, it should be made available to both teachers and evaluators for these purposes. For an SLO to be approved, ALL criteria must be met as indicated by a check mark in each box. The checklist must be completed by the evaluating administrator or district designee.

Student Population	Interval of Instruction	Standard and Content	Assessment(s) and Test Integrity	Baseline/Trend Data and Rationale	Growth Target(s)
Which students will be included in this SLO? Attach SLO class roster.	What is the duration of the course that the SLO will cover? Include beginning and end dates.	What content will the SLO target? To what related standards is the SLO aligned?	What assessment(s) will be used to measure student growth for this SLO? How will you administer the assessment(s) securely?	What information is being used to inform the creation of the SLO and to establish the amount of growth that should take place within the instructional interval?	What is your goal for student growth, and how did you arrive at this goal?
☐ Includes all students covered by the SLO. ☐ Describes the student population and considers any contextual factors that may impact student growth. ☐ Does not exclude subgroups of students that may have difficulty meeting growth targets. ☐ At least 60% of the students who are the responsibility of the educator are represented when combined with the other SLOs for the educator.	☐ Matches the length of the course (e.g. quarter, semester, year)	☐ Specifies how the SLO will address applicable state or national standards. ☐ Represents essential knowledge and skills that will endure beyond a single test date, be of value in other disciplines, and/or be necessary for the next level of instruction. ☐ Supports school improvement goals. ☐ Is rigorous. ☐ Is measurable.	☐ Uses an agreed upon assessment and follows appropriate guidelines. ☐ Aligns with the targeted standards. ☐ Relationship with learning objective is apparent. ☐ Measures the growth, gain, or change expected. ☐ Includes a plan to ensure test integrity.	☐ Identifies sources of information about students (e.g. test scores from prior years, results of pre-assessments). ☐ Addresses observable student need(s). ☐ Draws upon trend data, if available. ☐ Summarizes the teacher's analysis of the baseline data by identifying student strengths and weakness. ☐ Establishes criteria for placement in tiered target structure.	☐ Ensures all students covered by the SLO have a growth target. ☐ Uses baseline and pretest data to determine appropriate growth. ☐ Creates tiered targets when appropriate so that all students may demonstrate growth. ☐ Target for each student is included on SLO class roster. ☐ The growth target is appropriate for the length of the instructional interval.

SLO Target Method Matching Activity

Method Key

Directions: Use the method key to match the target statements below with the method used to set the target. A target statement may be a combination of two or more methods or not an actual growth target.

1. Individual Growth
2. Minimum Rigor
3. Basic Growth
4. Banded/Range-based/Tiered
5. Half to 100/Close the Gap
6. Not a Growth Target

Method(s)	Target Statement																									
	A) My district established the following targets for all 2nd grade ELA classrooms: Students will meet or exceed the expectations outlined below, as evidence by their scores on the district developed pre- and post-assessments. <table><tr><td>Performance Level</td><td>End: 0-50%</td><td>End: 51-65%</td><td>End: 66-85%</td><td>End 86-100%</td></tr><tr><td>Start: 0-50%</td><td>NO</td><td>YES</td><td>YES</td><td>YES</td></tr><tr><td>Start 51-65%</td><td>NO</td><td>NO</td><td>YES</td><td>YES</td></tr><tr><td>Start: 66-85%</td><td>NO</td><td>NO</td><td>NO</td><td>YES</td></tr><tr><td>Start: 86-100%</td><td>NO</td><td>NO</td><td>NO</td><td>YES</td></tr></table>	Performance Level	End: 0-50%	End: 51-65%	End: 66-85%	End 86-100%	Start: 0-50%	NO	YES	YES	YES	Start 51-65%	NO	NO	YES	YES	Start: 66-85%	NO	NO	NO	YES	Start: 86-100%	NO	NO	NO	YES
Performance Level	End: 0-50%	End: 51-65%	End: 66-85%	End 86-100%																						
Start: 0-50%	NO	YES	YES	YES																						
Start 51-65%	NO	NO	YES	YES																						
Start: 66-85%	NO	NO	NO	YES																						
Start: 86-100%	NO	NO	NO	YES																						
	B) Based on a variety of individual student information including previous performance & assessment scores, I.E.P. & E.L.P. information, and student pre-assessment, I have identified appropriate targets for each of my students on the district-wide, end-of-course Chemistry exam. All students will correctly respond to 70% of the test items.																									
	C) In my Algebra I class, 75 percent of students will pass the end-of-course exam.																									
	D) Students currently qualifying for the Participant Fitness Award (45/76) will improve their score by 10 percentile points on at least four activities. Students currently qualifying for the National Physical Fitness Award (23/76) will reach 85th percentile on at least three activities. Student currently qualifying for the Presidential Physical Fitness Award (8/76) will maintain their scores on their three strongest activities and improve their two weakest activities by at least 5 percentile points.																									
	E) All of the students in my World History class indicated in their beginning of the year survey that they were unaware of a majority of the major world events that are covered in this course. At the end of the year, my goal for each of my students is to be able to successfully respond to at least 75% of questions on the final exam.																									
	F) All of my students will progress at least one fitness level on the FitnessGram during the fall semester.																									
	G) Using AIMS web, students who score less than or equal to 51 words read correctly (WRC) in the fall will increase WRC by 37 or more. Students who score greater than 51 WRC in the fall will increase WRC by 42 or more.

Method(s)	Target Statement												
	H) In my Beginning Drawing class, each students will improve their skills and understandings by at least one level in each category of the district-wide Basic Drawing Rubric.												
	I) Baseline: On the district-developed written exam requiring reading and writing musical notes on a treble staff, no students met or nearly met expectations on the pre-test. 80 percent of students earned a 2 out of 5 and 20 percent earned 1 out of 5. Target: 80 percent of the students will earn a 4 out of 5 (Meets expectations) or better and 20 percent will score 3 out of 5 (Nearly meets expectations) on the district-developed written exam requiring reading and writing notes on a treble staff.												
	J) Students, including special populations, will grow to meet their individual targets on the district developed Building Trades I post-assessment. Students must increase their score on the post-assessment by at least half the difference between their pre-assessment score and 100%. All student will score at least 65% on their post-assessment.												
	K) Using the American Government pre-assessment, all students will meet their target scores. Assessment Quality Assurance Checklist

Purpose: This checklist should be used for assuring the quality of an assessment. In the process, the assessment is checked for Alignment to standards, Stretch, and Validity and Reliability.

District			School Year	
School (if applicable)			Subject	
Team (if applicable)			Grade	
Assessment Title				
Alignment to standards: Is the Learning Objective clearly reflected in the assessment measure?				
Yes	Partially	No		
			All items in the assessment align to the standard(s) addressed in the SLO.	
			The assessment measure addresses the full range of topics and skills included in the SLO.	
			The focus of the assessment mirrors the focus of the curriculum and standards.	
			The items or task match the full range of cognitive thinking required during the course.	
			The assessment requires the students to engage in higher order thinking where appropriate.	
Comments:				
Stretch: Will all students be able to demonstrate growth on this assessment?				
Yes	Partially	No		
			The test includes items that cover prerequisite knowledge and skills from prior years and appropriate, content relevant items that will challenge the highest performing students.	
			Test items cover knowledge and skills that will be of value beyond the school year.	
Comments:				
Validity and Reliability: Is the assessment measure a valid and reliable tool for the intended purpose?				
Yes	Partially	No		
			The assessment does not include overly complex vocabulary.	
			Items or tasks are written clearly and concisely.	
			Clear scoring rubrics or guidance exist for open-ended questions or performance-based assessments.	
			A teacher can administer the assessment consistently across classes.	
Comments:
